

# Dormia

Nitinol Stone Retrieval Baskets

# Flexible ureteroscopy

## No-Tip 1.5 Ch/Fr and 2.2 Ch/Fr

### Basket

- **Tipless** design for closer proximity to calculi to minimize trauma, reduce bleeding and maintain a clear working field.
- **4 wire basket** for effective stone capture and retrieval in the calyx.
- **Nitinol** alloy for best compromise between strength and flexibility.

### Sheath

- **Flexible** sheath allows maximum deflection of the ureterorenoscope during stone manipulation.
- **Teflon** coated sheath provides a smooth glide and easy passage through the scope.
- 1.5 Ch/Fr diameter improves irrigation flow, visibility and scope deflection.

### Handle

- **Removable**, ergonomic and single-handed use.
- Quality **torque** to aid in stone capture.
- 1.5 Ch/Fr with **new handle design** to facilitate greater basket control and rotation during the procedure.

Ref.	Diameter	Length	Basket size	Quantity
EXN934	1.5 Ch/Fr	120 cm	9 mm	Box of 1
EXN734	2.2 Ch/Fr	120 cm	11 mm	Box of 1

Supplied with a waterproof connector (Tuchy-Borst).

Designed for use in the kidney and ureter

CONTROLLED CAPTURE FOR MAXIMUM STONE-FREE RESULTS

# Semi-rigid and rigid ureteroscopy

## No-Tip 3 Ch/Fr

### Basket

- **Tipless** basket for efficient capture and controlled release, with minimal risk of trauma.
- **4 twisted wire with a flower design** at the distal portion of the basket to facilitate stone and fragment retention during retrieval.
- **Nitinol** wire construction with excellent shape memory characteristics.

### Sheath

- **Teflon** coated sheath reduces friction and provides smooth movements.

### Handle

- **Removable**, ergonomic and single-handed use.
- Quality **torque** to aid in stone capture.

Ref.	Diameter	Length	Basket size	Quantity
EXN434	3 Ch/Fr	90 cm	14 mm	Box of 1

Designed for use in the ureter

# Semi-rigid and rigid ureteroscopy

## N.stone

### Basket

- **4-wire** construction for a maximum stone retention in a helical-wire design.
- Effective expansion force of the basket: shape retention memory.
- **Nitinol** alloy, kink-resistant and flexible design with atraumatic tip.

### Sheath

- **Teflon** coated sheath reduces friction and provides smooth movements.

### Handle

- **Removable**, ergonomic and single-handed use.
- Quality **torque** to aid in stone capture

Ref.	Diameter	Length	Basket size	Quantity
EXT624	2.5 Ch/Fr	90 cm	12.5 mm	Box of 1
EXT424	3 Ch/Fr	90 cm	15 mm	Box of 1
EXT224	4 Ch/Fr	90 cm	15 mm	Box of 1

Designed for use in the ureter

## Tuohy Borst adapters

### Designed to:

- **Secure** the position of instruments inserted through the working channel of scopes.
- **Minimize** tubing kinks when connecting.
- **Prevent** the backflow of fluid.

Ref.	Quantity
AK2000	Box of 10
